Airblue Airbus A321 Crashed in Pakistan

Today an Airblue Airbus A321-231 (AP-BJB) crashed into a mountains near Islamabad-Benazir Bhutto International Airport (ISB), Pakistan. Flight ED202 was bound from Karachi to Islamabad. All 6 crew members and 146 passengers on board were killed.

The plane AP-BJB, MSN (Manufacturer Serial Number) 1218, was initially delivered from the production line in 2000. The aircraft was formerly operated by Aero Lloyd (D-ALAN) and Aero Flight (D-ARFA) and was leased to airblue in January 2006. The aircraft had accumulated approximately 34,000 flight hours in some 13,500 flights. It was powered by IAE V2533 engines.
