How About These Locations For Travelling?

It is pretty safe to say that there are many places across the world that people would not have thought about going before and you really are missing out because they are great. I am not talking about one of those [spa breaks](#) or [dancing holidays](#) here, something a bit different!

Moscow

Despite what people often think about Russia it is a beautiful city to visit and there is a lot to do. One of the most popular locations in Moscow is of course Red Square and despite what people believe it is not actually named after the soviet Partys colour back in the day but after an old word that stood for beautiful when it was used in the 17th century for the first time.

if you are in the capital then one thing you must make sure you do is visit the Kremlin, it is the centre of government in Russia and is a fortress packed with landmarks such as museums and cathedrals. Not all of the buildings are of course open to the public. one of the other things that is worth doing is paying a visit to the mummified body of Lenin. surely you must know who Lenin is right?.

Tokyo

This city really can be very overwhelming indeed and it is one of the busiest in the world. If you have enough time during your stay I would take a trip to Disneyland and DisneySea, it really is worth it. the city itself is immersed in all things technology which makes it a fantastic place to go, you can explore it with ease. Other things to look into when you are out there include the fish market and Meiji Jingu shrine.

It may be a bit different from your [Torquay holidays](#) trip but doing something like this is well worth the wait and money saved.
